** James Murray used two cameras, one telefoto and one wide angle. The rolls as numbered alternate between the two cameras. Rolls 1,3 - Camera 1; Rolls 2,4, etc. - Camera 2. However, the individual photos do not alternate. Camera 2 was used much less frequently than Camera 1. The photos on Rolls 2,4,6 and 8 therefore are interspersed with Rolls 1,3,5 and 7 on a more or less random basis. Only the times listed indicate the true sequence. The roll and photo numbers listed are those appearing on the actual films.

In addition there are four other Black Star photographers who took pictures:
Gene Daniels, Matt Herron, Shel Hershorn and Mr. Shulke.

Gene Daniels took a total of 260 black and white, 35 mm still photos during the November 22-24 period. A few of these were taken the afternoon and evening of November 22 and the rest on November 23 and 24. There are scenes at Dealey Plaza, TSBD, Sheriff's office, Police station, Police press conferences, Oswald's rooming house and room, Oswald's public appearances, and views of Elm Street from Dal Tex Building through telescopic sight.

Their photos are not counted on this list because they were not taken on November 22 in Dealey Plaza.
